

MUNYON'S STARTLING DISCOVERY.

A NEW CURE TO
PROLONG LIFE.

Made from the Fruit of
PAW PAW.

**Stops All Wastes by
Feeding the Nerves.**

REVITALIZES BLOOD

CURES DYSPEPSIA, INDIGES-
TION AND STOM-
ACH TROUBLES.

A GREAT TEST TO BE
MADE IN RANDOLPH.

Sample Bottles to be Given
Away from the Drug
Store of F. E. Bryan.

This Free Distribution Begins at 9
O'clock, Friday, Feb. 19, and Con-
cludes on Saturday at 6 P. M.

To the Editor of the Herald and News:
Having discovered a new remedy which
I believe will revolutionize the practice of
medicine, I most earnestly ask that you
assist me in its introduction by announcing
a free distribution from Bryan's Drug
Store.

I want the public to know the truth,
know it as I know it.
I believe there is a cure for every disease
—I believe that human life can be prolonged
—I believe that people should die only of
old age, and I also believe and know
that my Paw Paw remedy will not only
relieve much suffering, but add many years
to the average life.

In my own opinion dyspepsia and indig-
estion are the cause of most ailments.
Indigestion means nervousness, sleepless-
ness, impure blood, catarrh, sluggish liver,
kidney and heart affections. No person
can be happy—no person can see the beauties
of life and enjoy its pleasures, who
suffers from any form of stomach trouble.

An eminent doctor called my attention to
the wonderful benefit he had derived from
eating Paw Paw fruit, telling me that it
had made almost a new stomach for him.
I began to experiment with this fruit and
found it to be a most powerful aid to dig-
estion.

I have taken the medicinal qualities of
this fruit and combined it with other
medicaments and have made a preparation
which is called "MUNYON'S PAW PAW."
I cannot recommend this remedy too
highly for all forms of indigestion and
nervousness. This remedy also acts won-
derfully well on the liver, blood and kid-
neys, but I believe its greatest office is in
its marvelous effect upon the stomach and
nerves. It is really a nerve food and vital-
izer.

It gives exhilaration without intoxica-
tion. It does what whisky or beer cannot
do. It relieves the nerve tension. It stimu-
lates every fibre and puts into active
force every tissue of the body. It lifts one
into the altitude of hope and holds him
there. It is a bridge that enables the weak
and sickly to cross dangerous places. It
feeds and nourishes the nerves, so that the
blood corpuscles will be constantly revital-
ized, and the losses of the vital forces will
be almost imperceptible. In other words,
it will supply a sufficient quantity of life
matter to take the place of the waste.

Instead of irritating the nerves and
stomach, it soothes and strengthens them.
Almost every human being some time
experiences a stimulant. NOT AN ALCOHOLIC
STIMULANT, but a stimulant
that will buoy up for a moment, and then
cast down to lower depths of depression,
but a stimulant that will give an abiding
strength and lasting force.

My Paw Paw aids the stomach to digest
hearty foods, and to make good, rich
blood, which again in turn strengthens
the nerves, vitalizing all the tissues, and
soon produces muscle, tissue, bone.

It is my opinion that the clergymen in
this country could do no greater service to
the cause of temperance than to advocate
the general use of my Paw Paw, for by its
use drunkenness would be lessened, and
the morals and health of the community
greatly improved.

A wife whose husband is addicted to
drinking can do nothing better for herself
or family than to get a bottle of this Paw
Paw, and whenever her husband feels the
need of a tonic, give him a tablespoonful
of Paw Paw. She will find that he will
soon lose all cravings for strong drinks—
that his nervousness and longing for ex-
citement will disappear, and he will be
perfectly satisfied without alcoholic stimu-
lants and harmful beverages.

I have so much confidence in this reme-
dy that I propose distributing trial bottles
free from the leading drug stores through-
out the country. I want everybody to try
it, feeling confident that it will bring relief
and happiness.

Trusting you will aid me in this investi-
gation, I beg to remain,
Yours faithfully,
J. M. MUNYON.

Professor Munyon has adopted the same
method of introducing this remedy that
has characterized the introduction of all
his other remedies—by distributing free
samples from the leading drug stores, and
inviting the public to make a thorough test
then report the results through the col-
umns of the newspapers.

We cheerfully open the columns of our
paper to this investigation, and hope that
every person suffering with any nerve or
stomach trouble will give this remedy a
careful test.

This free distribution begins on Friday,
February 19th at 9 o'clock, from the Drug
Store of F. E. Bryan and concludes Satur-
day, February 20th, at 6 p. m.

**Every Exertion
a Task**

There is failure of the strength
to do and the power to endure; a
feeling of weakness all over the
body.

The vital functions are impaired,
food does not nourish, and the
whole system is run down.

A medicine that strengthens the
stomach, perfects digestion, invigor-
ates and tones is needed.

What Hood's Sarsaparilla did for Mrs. L. B.
Garland, Shady, Tenn., it has done for others.
She took it when she was all run down—with-
out appetite, losing flesh, and unable to do
her work. It restored her appetite, increased
her weight, and made her well and strong.
This is her own unqualified statement.

Hood's Sarsaparilla

Promises to cure and keeps the
promise. The earlier treatment is
begun the better—begin it today.

An Early Riser.

A strong, healthy, active constitution
depends largely on the condition of the
liver. The famous little pills known as
DeWitt's Little Early Risers not only
cleanse the system but they strengthen
the action of the liver and rebuild the
tissues supporting that organ. Little
Early Risers are easy to act, they never
grip and yet they are absolutely certain
to produce results that are satisfactory in
all cases. Sold by all druggists.

LILLIEVILLE.

The Loyal Legion will hold a sociable at
Bradford Brown's Feb. 23. All are in-
vited.

Dyke's was well attended. Much credit is
due Miss Blanche Dunham for the nice
pieces spoken by the scholars which were
well appreciated in the temperance work.
Miss Abby Beckwith read a temperance
piece which was good; she also played
several pieces on the organ. Mrs. Jessie
Soble played for several to sing temperance
songs. Cake and coffee were served.
The children played games and all had a
good time.

The report in last week's paper about
Cecil Washburn's barn was incorrect. He
did not have any warning of the barn fall-
ing in. He, with his family, had just got
home from church. He was in the house
when they all heard a loud crash and they
ran out and found the barn crashed in by
the heavy snow and rain. The whole
barn, clear to the basement, went down.
The cattle were in the basement and
fortunately were not hurt. This is a
great loss to Mr. Washburn, and he has
the sympathy of all.

Up to the Standard Weight.

"Excuse me, sir," said the young lady
in the street car; "but I have read that
a man about the height I should judge
you to be, five feet ten inches, should
weigh 163 pounds. I take it that you
weigh quite as much as that."

"But how can you judge?" asked the
strange young man, lifting his hat.

"Because you are standing on one of
my feet."

"Yes, dear," was the confident reply.
"I've always had supreme faith in

And then he said he'd better be going,
for he was ten minutes late anyhow.—
